Neo HPL Postforming Manufacturing

The Neo manufacturing factory started its operations in 2023 (1402 in the Iranian calendar) with the aim of producing countertops, located in the Safadasht Industrial Park. With a long history in importing raw materials for the wood industry (such as MDF, HPL, Melamine and etc.), the factory began its production.

Currently, we have been able to complete another part of the supply chain needed by the wood industry and general consumption by producing new and modern designs in unique patterns and colors, and releasing them to the market.
